

INSTRUCTION MANUAL

INDUSTRIAL BLENDER - T18AL-160001 W4

IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be observed including the following:

- Before connecting your blender check if voltage of your power system corresponds to the same specified on the appliance.
- To protect against risk of electrical shock, do not put cord, plug, base or motor in water or other liquids.
- Never connect two or more appliances in the same plug.
- When not in use, unplug the blender.
- Avoid starting blender
- Avoid contact with moving parts because blades are sharp. "Handle carefully".
- Keep hands and utensils out of container while blending to prevent the possibility of severe personal injury and or damage to blender. A plastic spatula may be used but must be used only when blender is "NOT RUNNING".
- Only remove the container when blender "COMPLETELY STOPPED".

INSTRUCTIONS FOR USE

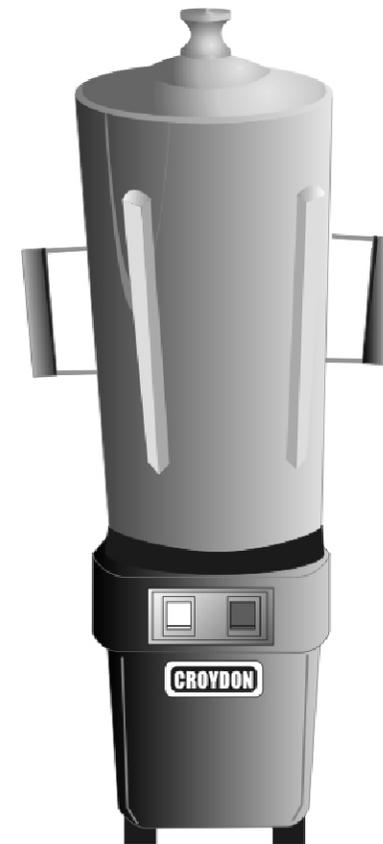

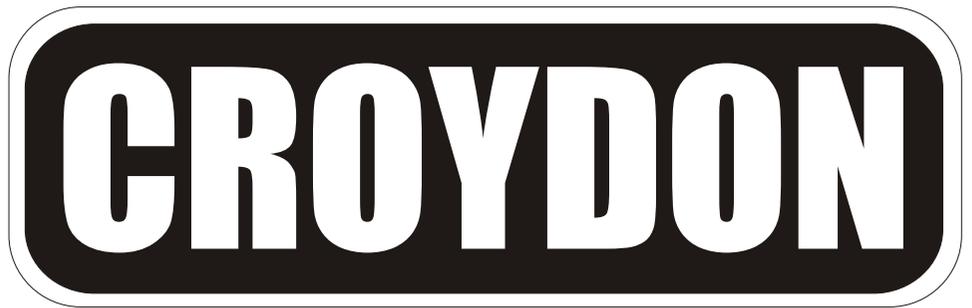

- Blender control is made by two buttons: * White bottom (on/off)
* Red bottom (pulse)
- It is recommended to cut food in small pieces and maintain food below freeze height to avoid spilling.
- To start blender, place small quantity of food before connecting it, and afterwards complete container placing food through service lid.
- For mixed dry ingredient use the pulse bottom first.
- When blender is running do not remove the lid.
- If blender action stops, turn blender off. Remove lid and use a plastic spatula to push mixture toward blades. Replace lid and continue.

CLEANING PROCEDURE

- Clean container (cup) with liquid soap and water filling to half capacity.
- Turn on blender for some seconds.
- Turn off blender, empty the container and rinse it.
- Unplug blender clean body and external cup with a wet cloth.
- Do not use harsh detergent or chemical products for cleaning.
- To disassemble see Fig1
